

## Materials Update – Q2 2026

Our downloadable materials are currently being updated to reflect our latest acquisition pipeline, structured opportunities and active partnerships.

We do not circulate outdated or partially representative information.

Our work spans acquisition, partnership structuring and exit strategy:

### **Off-Market Acquisitions**

We source and secure opportunities

### **Joint Venture Partnerships**

We structure partnerships with landowners, investors and developers to align interests, manage risk, and deliver projects under a controlled framework.

### **Structured Exits**

We design and execute clear exit strategies, including refinance, asset stabilisation, or disposal, ensuring capital is protected and value is realised.

For a detailed view of how we operate, please review:

- Investor Partnerships
- Project Delivery Services
- Project Recovery & Turnaround

Updated materials will be released shortly.

For current opportunities, partnership discussions, or off-market situations, please contact us directly.
